PROFILE

Agriculture graduate turned self-taught technologist, building practical AI tools for automation, customer support, and agri-tech. Comfortable shipping end-to-end products — from Python RAG systems and LLM workflows to web apps and data visualizations — with a parallel practice in videography and photography for client storytelling.

EDUCATION

Bachelor's Degree in Agriculture	Graduate
Bangladesh Agricultural University (BAU)	
SSC & HSC	Secondary & Higher Secondary
Savar Cantonment Public School and College	

SELECTED PROJECTS

Chashi Bondhu — Crop Disease Identifier	React · TypeScript · Gemini AI
AI tool that analyzes crop images to identify diseases and recommend treatments in Bengali and English — bridging agriculture domain knowledge with modern multimodal AI.	
PlantDoc RAG ChatBot	Python · Streamlit · ChromaDB
Document Q&A chatbot using Retrieval-Augmented Generation with specialized agricultural models for plant pathology guidance.	
Dam Koto Bot — Python RAG Assistant	Python · FastAPI · ChromaDB · Docker
Multilingual (Bangla / Banglish / English) e-commerce support bot with catalog search, vector RAG for policies, and OpenRouter LLM orchestration.	
DamKoto Bot — Multilingual AI Support (Automation)	n8n · Gemini · Vector Store
Hands-free customer support workflow: language detection, live product lookup, inventory checks, and policy answers via an AI agent pipeline.	
AI-Powered Cold Outreach Automation	n8n · Groq · Gmail · Sheets
B2B outreach pipeline that scrapes lead sites, drafts personalized emails with an LLM, sends via Gmail, and logs status in Google Sheets.	
VocabFlow — AI Vocabulary Learning	Next.js · TypeScript · Groq · Supabase
Spaced-repetition vocabulary platform with LLM-powered usage maps; shipped as a PWA and native mobile app via Capacitor.	
Interactive Bangladesh Choropleth Map	Leaflet.js · D3.js · JavaScript
Interactive district-level map for exploring educational statistics across all 64 districts of Bangladesh.	

SKILLS

AI & ML	RAG, LLMs (Gemini, Groq, OpenRouter), ChromaDB, Bangla NLP, prompt workflows
Automation	n8n, Gmail / Google Sheets integrations, AI agents, lead outreach pipelines
Engineering	Python, FastAPI, SQLAlchemy, Docker, React, TypeScript, Next.js, Streamlit
Data & Viz	JavaScript, Leaflet.js, D3.js, interactive mapping
Creative	Videography, photography, short-form storytelling for personal & client work
Languages	Bengali, English (professional working proficiency)

CREATIVE WORK

- Personal films:** BAU campus film, short film “Bivrom”, “Algorithm of Life”
- Client videography:** fitness & running content series for Sajjad Hossain Snigdho
- Visual storytelling through motion, mood, and frame composition
- Available for focused client projects with clear outcomes
